e-Portfolio Reflection 2

OLTD 509 – Emergent Environments & Technologies

OLTD Learning Outcome:

Undertake engagement with environments through online facilitation for effective learning

- Establish relationships with learners and families
- Build teacher to student rapport

Evidence Chosen to Support Outcome:

This assignment required to revise our credo or teaching philosophy.

Reflection to Support Evidence:

This is one of the most meaningful assignments I engaged throughout the program. First, I had the opportunity of go back and look at the teaching philosophy document I wrote while I attended VIU's Post – Baccalaureate program 5 years ago. Surprisingly enough, the foundation of my philosophy remains intact but I believe that there has been a crucial transformation in my practice in terms of course design.

My experiences as a teacher at the Gulf Islands Secondary School and as a learner in the OLTD program pushed me to think "outside the box" and to really reflect on the learning process from the student point of view.
